

# CALGARY METRO

## CALGARY COLOCATION FACILITIES ENABLE CUSTOMERS TO BE PART OF A RICH SERVICE PROVIDER AND BUSINESS ECOSYSTEM

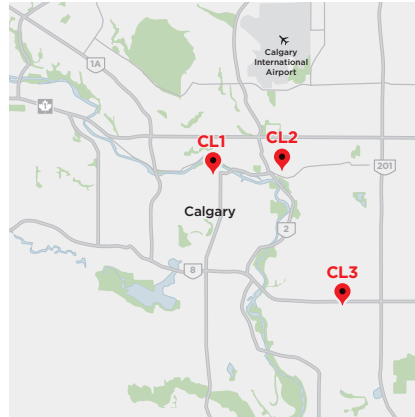

Calgary is Canada's fourth-largest data center market, with the greatest demand coming from enterprise and in particular the energy, retail and healthcare sectors.

The oil & gas industry has historically been the key driver for the colocation market in the Stampede City, and the three International Business Exchange™ (IBX®) data centers there enable customers to directly tap into those sectors. Equinix Calgary also houses several important business ecosystems for cloud and network providers, making it ideal for the retail and healthcare industries.

Customers can choose from a range of network services from many local and international providers, in addition to interconnecting with a variety of content and digital media (CDM) companies.

### Calgary Metro Facilities

The Equinix Calgary metro IBX data centers consist of three buildings with 74,625 square feet (6,900 square meters) of rentable colocation space. These three spaces are located strategically in and just outside of the downtown area, and all carry a power density ranging from 2.5-5.0 kVA per cabinet.

### Why Equinix

- Interconnect with the largest industry ecosystems.
- Optimize communications and exchange data with enterprises, content providers, and cloud, network and internet service providers.
- Leverage Performance Hub® to enable next-generation WAN architecture for secure and highly reliable connectivity to network, cloud and IT service providers.
- Provide cloud and internet services quickly and easily to Equinix-deployed customers.
- Interconnect with top content companies to reduce latency and help improve user experience.
- Certified to meet rigorous environmental and energy management standards.
- 220+ data centers, 63 major markets, 26 countries and an industry-leading >99.9999% average uptime record.
- Connect directly with our global ecosystem of 9,500+ customers that are interconnected with 378,000+ virtual connections.
