DA7 SOLUTIONS SHEET

DA7 is a state-of-the-art data center in the Dallas metro enabling customers access to the Dallas ecosystem of 440+ network, cloud and content providers.

Equinix invested more than \$20 million for the DA7 International Business Exchange™ (IBX®) data center, which currently includes 1,200 cabinets. Now at full build the site has a total of approximately 37,900 ft² (3,522 m²) of colocation space bringing the total Equinix Dallas footprint to 288,400+ ft² (26,790m²) of colocation space dispersed over eight data centers.

Four of the five existing Equinix Dallas data centers are located within the Dallas Infomart Data Center™, a 1,600,000 ft² (148,645 m²) building with multiple diverse fiber entry points into the building. With close proximity to the Infomart, DA7 will offer connectivity to 440+ customers such as AT&T, Level 3, Sony, Yahoo, LinkedIn and Verizon, as well as Equinix Cloud Exchange Fabric™ (ECX Fabric™).

Why Dallas?

- The Dallas-Fort Worth region has long been a major internet and network peering exchange point and continues to be a major communications hub for the southern United States
- Our Dallas data centers are business hubs for 440+ companies. Customers can choose from a broad range of network service from 140+ network service providers
- They can also interconnect directly to customers and partners in their digital supply chain. The Dallas colocation facilities enable customers to be part of a rich industry ecosystem and serve a high concentration of telecommunications companies
- Equinix helps companies accelerate business performance by connecting them to their customers and partners inside the world's most-networked data centers

Why DA7?

- Data growth is increasing so rapidly that traditional storage management and data analysis methods are no longer feasible.
- In order to gain efficiencies, companies are using new technologies to parse and distribute data to locations in close proximity to where processing occurs
- DA7 provides customers who want to deploy data-intensive services close to their customers, partners and public clouds by seamlessly connecting back to other Equinix IBX data centers in the Dallas Infomart Data Center™
- World-class ecosystem; strategic location; room to grow

Interconnectivity

About Equinix

Equinix, Inc. (Nasdaq: EQIX) connects the world's leading businesses to their customers, employees and partners inside the most-interconnected data centers. In 52 markets across five continents, Equinix is where companies come together to realize new opportunities and accelerate their business, IT and cloud strategies. In a digital economy where enterprise business models are increasingly interdependent, interconnection is essential to success. Equinix operates the only global interconnection platform, sparking new opportunities that are only possible when companies come together.
