

# LONDON METRO

IN THE HEART OF EUROPE'S FINANCIAL CENTER WITH UNRIVALED ACCESS TO MORE THAN 30 EUROPEAN MARKETS AND 80 EXCHANGES

Our London data centers are business hubs for more than 1,130+ companies. Equinix London customers can choose from a broad range of network services from 200+ providers and a dense concentration of financial services, internet service providers, cloud and IT services, enterprises and content and digital media companies.

Our London data centers, based in prime locations near one of the world's most important financial centers, are served by excellent communication links and offer unrivaled access to more than 30 European markets and 80 exchanges. Our data centers are home to Equinix Internet Exchange (IX) as well as The London Internet Exchange (LINX) and London Network Access Point (LONAP). We also host connectivity to major cloud service providers that include Amazon Web Services (AWS), Microsoft Azure and Google Cloud Platform.

## London metro facilities

The Equinix London metro consists of nine data centers (one xScale™ and eight International Business Exchange™ (IBX®)) strategically located around central London with 757,000+ square feet (70,250+ square meters) of colocation space. These data centers offer scalable technical space, leading operational resiliency and world-class security.

## Equinix value by vertical

### For network service providers

- Connection to multiple peering platforms including Equinix IX, LINX and LONAP.
- Access to AWS Direct Connect and Microsoft Azure ExpressRoute through the Equinix Cloud Exchange Fabric™.

### For enterprises

- Performance Hub™ enables next generation WAN architecture for secure and highly reliable connectivity to 200+ network service providers and 285+ cloud and IT service providers.
- On-demand and direct access to multiple cloud providers via the Equinix Cloud Exchange Fabric.

### For cloud and IT service providers

- Ability to connect to 1,130+ customers, partners, content providers, networks and internet service providers.
- Secure, direct access, over the Equinix Cloud Exchange Fabric, to consume and deliver cloud services.
- Access to 200+ network service providers for unparalleled customer reach.

### For content and digital media

- Growing ecosystem of media and entertainment producers and broadcasters.
- Close proximity to the content production hubs in Soho and the major Studio locations at Pinewood, Shepperton and Longcross.
- Interconnect with major content digital networks (CDNs) that include Akamai, Limelight and Level 3 to reduce latency and help improve user experience.
- Direct access to major cloud providers (AWS, Azure, GCP) to enable remote workflow capabilities.

### For financial services

- The Slough campus (LD4, LD5, LD6, LD7, LD10, LD13x data centers) is strategically located in proximity to the heart of Europe's largest financial services market.
- Secure facilities for leading capital markets participants, insurers and electronic payments firms.
- Home to Europe's largest multilateral trading facility BATS Chi-X and FX trading system ICAP's EBS venue.
- Multicloud banking architectures are available from Microsoft, Amazon, VMware and Oracle in a secure, compliant dedicated infrastructure that cuts out risk from public networks such as the internet and shared networks.
