

# SÃO PAULO METRO

## THE FINANCIAL HUB OF BRAZIL

Equinix data centers in São Paulo offer the only facilities in Brazil with space for large-scale colocation. They are home to 1,210+ companies, comprising a dense concentration of financial services firms, cloud and IT service providers, digital content providers and social media platforms. Customers can choose from a broad range of network services and can interconnect directly to customers and partners in their digital supply chain.

The São Paulo data centers allow customers to interconnect with companies collocated in our Rio de Janeiro facilities.

### São Paulo metro facilities

The Equinix International Business Exchange™ (IBX®) data centers consist of 149,000+ square feet (13,875+ square meters) of colocation space. They are compliant with ISO 9001:2008 to meet quality management system standards, ISO 27001 for information security management, SSAE 16 / ISAE3402 SOC1 Type I, an international auditing standard for service provider locations, and PCI DSS.
