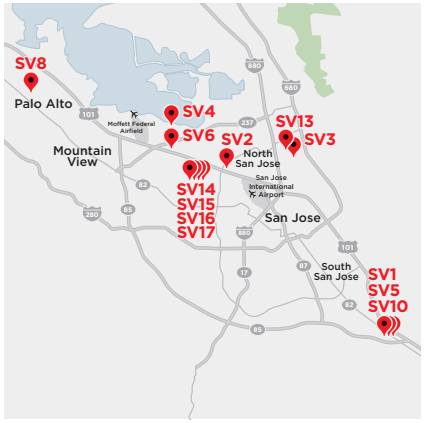
AT-A-GLANCE

SILICON VALLEY METRO

LARGEST RETAIL COLOCATION FOOTPRINT AND DENSEST INTERCONNECTIVITY IN THE SILICON VALLEY REGION

Equinix helps companies accelerate business performance by connecting them to their customers and partners inside the world's most-interconnected data centers.

Our Silicon Valley data centers are business hubs for 700+ companies. Customers can choose from a broad range of network services, content, social media, software/SAAS, cloud and IT services companies, all of which are incredibly influential in the acceleration of the digital economy. Equinix customers can interconnect directly to customers and partners in their digital supply chain.



The Silicon Valley colocation facilities enable customers to be part of a rich industry ecosystem. Equinix has the largest retail colocation footprint and densest interconnectivity in the Silicon Valley region, with many mature business ecosystems to match customers with the right business partners.

Silicon Valley metro facilities

The Equinix Silicon Valley metro International Business Exchange™ (IBX®) data centers consist of seven buildings with 617,000+ square feet (57,350+ square meters) of colocation space. Our data centers provide access to key metro areas such as Seattle, Denver and Los Angeles via one of the carriers in the facilities.

To learn more about interconnection opportunities in Silicon Valley, visit the Explorer feature within Equinix Marketplace.
