

SINGAPORE METRO

CONNECT TO THE MOST NETWORK-DENSE DATA CENTER PROVIDER IN SOUTHEAST ASIA

Our Singapore data centers are business hubs for 695+ companies. Customers can choose from a broad range of network services from 210+ providers. There is a dense concentration of financial services companies, cloud services, biomedical sciences, IT, communications, media, physical sciences and engineering industries. Equinix customers can interconnect directly to customers and partners in their digital supply chain.

The Singapore colocation facilities enable customers to be part of a rich industry ecosystem. Centrally positioned in Southeast Asia to access key global financial nations. Equinix has the most network dense data centers in Singapore that house many of the international and regional networks connecting South Asia.

Singapore Metro Facilities

The Equinix metro Singapore International Business Exchange™ (IBX®) data centers consist of four buildings with more than 468,000 square feet (43,500+ square meters) of colocation space, with the new Singapore SG4 data center providing customers the ideal location for deploying colocation on the east side of Singapore.

Our SG1 facility is BCA-IDA Green Mark certified, while SG2 and SG3 have received the GoldPLUS and Platinum award respectively. Singapore is also the home of one of Equinix's Solution Validation Centers, where customers can test and implement their data center, IT infrastructure, network and cloud rollouts to reduce risks in production-scale deployment and maximize their return on investment.
